EYE ON DESIGN

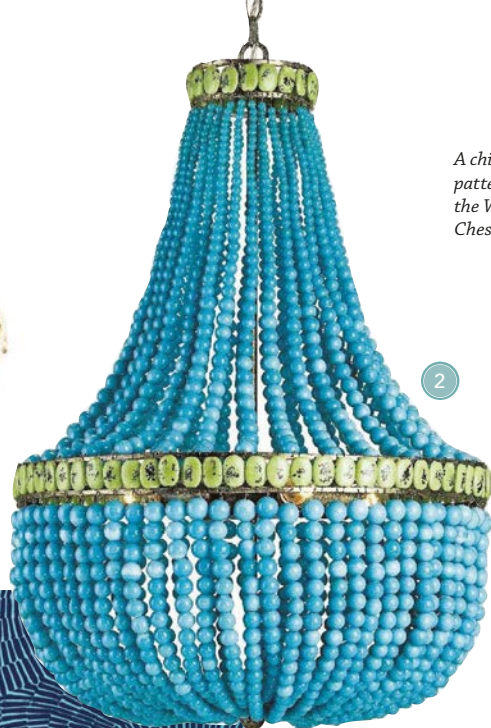

NATURAL BEAUTY IS SO MUCH MORE THAN A TREND! Start with Mitchell Gold + Bob Williams iconic Classic Parsons table base, dressed up in polished stainless steel. Pair it with your choice of tabletop in tempered glass, wood or quartz. Next add subtle sparkle and sophistication with hand-picked and hand-cut natural agate geodes. For added impact group with amethyst votive candle holders formed from natural amethyst clusters - this textured beauty has rich purple hues that glow warmly in votive candlelight. Keep it fresh and modern with Winston Metallic Cube Ottomans in hair on hide. Use them as "comfortable cocktail tables" or at the end of the bed. Finish with a stack of design tomes and it's a classic. Available from Mitchell Gold + Bob Williams, www.mgbwhome.com

Dreaming Small: Intimate Interiors

by Douglas Woods, Photographed by Melba Levick (Rizzoli)

The masterpieces of small-house living featured here will serve as inspiration to those who struggle with the challenges presented by contemporary life in petite-size homes. *Dreaming Small* is a celebration of jewel-box homes, each marked by a sense of style that marries eclecticism, practicality, beauty, and livability.

From quintessential bungalows and classic casas to Tudor fantasies, these delightful abodes are models of rich diversity and inspired living. In brilliant new photography, the book explores the possibilities that exist in these mostly unpublished gems by legendary architects Irving Gill, Richard Neutra, Rudolph Schindler, and Paul R. Williams, among others. The houses, each under two thousand square feet, are examples of what is possible in the small house and offer the reader a colorful palette of ideas from which to artfully transform spaces into comfortable, contemporary living.

Living with Flowers

by Nico De Swert, Photographed by Wendell T. Webber (Abrams)

Nico De Swert's fantastic floral arrangements are anything but traditional bouquets. They are more likely to resemble the bustle of an haute couture evening gown, an art installation, or an abstract explosion of colors and textures. Shunning traditional romantic floral design and instead striving for gorgeous artifice, De Swert challenges the viewer to see flowers and plants in a new light: as a medium, much like fabric or paint, for creating art.

Silk and Cotton Textiles from the Central Asia that Was

by Susan Meller (Abrams Books)

Author Susan Meller has spent years assembling the 590 textiles illustrated in this book. She documents their history, use, and meaning through archival photographs and fascinating travelers' narratives spanning many centuries. Her book will be a revelation to designers, collectors, students of Central Asia, and travelers to the region.
