# EYE ON DESIGN

Roche Bobois Saga 2 Dining Table by designer Christophe Delcourt. Delcourt uses solid oak as his main material but also as a clear demonstration of eco-design. Beyond its 'organic' design, the choice of QF2 quality for the table's oak draws attention to the knots, branches and other visible features of the tree's life cycle. The sides of the sideboard reveal the cross section of a tree trunk stained in black carbon in order to blend with the interior of the piece. Available at Roche Bobois, [www.roche-bobois.com](http://www.roche-bobois.com)

Stunning Amor sofa offers relaxation in a classic silhouette. Blackened metal base is not only streamlined and sleek, it also offers the Amor series a lighter but substantial space-saving stance. Also shown: Store your favorite coffee table books and magazines on the side of the sleek and stylish Jane coffee table. The eco-leather wrapped metal coffee table is the perfect fit for any modern living room. With a mid-century modern aura, the Noble Lounge Chair is every inch contemporary. Available through HIP. Designed by Xavier Lust for Pianca, the Confluence Table is an experimentation on metal, which has always characterized Lust's work. With a fluid movement, the steel legs converge, supporting the top, which seems to levitate. The myriad of finishings allows the tables - rectangular, round and elliptical - to adapt to different styles. Available through HIP. [www.hippdx.com](http://www.hippdx.com)

BOOKSHELF | Inspired House

**Victoria Hagan:**  
**Dream Spaces**  
by Victoria Hagan and  
David Colman  
(Rizzoli) [www.powells.com](http://www.powells.com)

In her much-anticipated second book, Victoria Hagan features an exquisite selection of new interiors that embody the “soft modern” look that distinguishes her work. In these appealing, timeless projects—including a New York penthouse, a Nantucket beach house, and a Western ranch—formal architecture is loosened up with a generosity of spirit and an appreciation for the whimsies of style. Throughout, Hagan discourses on the spirit of the unexpected detail—a vintage mirror or a unique chair—that adds soul and modernity.

**A Well-Crafted Home**  
**Inspiration and 60 Projects**  
**for Personalizing Your Space**  
by Janet Crowther  
(Potter/TenSpeed/Harmony)  
[www.powells.com](http://www.powells.com)

Craft meets home decor in this gorgeous lifestyle book featuring 50-plus handmade projects for every room in the home. From “the DIY maven” (*Architectural Digest*), comes a beautiful, practical craft book for both aspiring and seasoned

makers. Here are 60 projects for high-quality furniture, textiles, and accessories to enjoy all through the house—plus all the techniques you need for dyeing or sewing fabric, cutting leather, antiquing mirrors, working with wood, and much more. With beautiful photographs of rooms styled with all of the projects, *A Well-Crafted Home* proves that even the smallest touch of hand-made can make a house a home.

**Authentic Design: Lauren Rottet and Rottet Studio**  
by Lauren Rottet, Foreword by  
Paul Goldberger  
(Rizzoli) [www.powells.com](http://www.powells.com)

A luxurious presentation of the work of a celebrated American designer and architect known for creating spaces that balance modern simplicity and historic detail. This book features the work of Lauren Rottet over the past fifteen years and includes the interiors of houses, apartments, hotels, and design studio offices in the wide range of styles at which Rottet Studio is adept. Above all, her elegant, contemporary designs, like pieces of art, emphasize transparency and light.

## Decorating with Photography

INTERVIEW WITH NORTHWEST PHOTOGRAPHER J.R. ROBINSON

Tell us about your photo of the 2017 total solar eclipse (top).

My eclipse sequence was something I'd planned and anticipated for about a year and a half. I spent three days scouting for the best spot, tracked the arc of the sun's passage the morning before, and hiked up onto a hillside at 3AM the morning of to be ready for sunrise. It was a unique and thoroughly rewarding experience, one that was a new approach for me, as I normally shoot without preconceived notions of what I want to capture.

Your work is often black and white – white inspires that?

I've always gravitated toward black and white imagery in filmmaking, which is my training and professional background. Black and white in many ways strips out the distractions of an image; the way shadows play on the side of a mountain, the texture of a man-made stone wall against a backdrop of forest, the imposing dynamism of a looming storm-cloud.

Right: "Black Stallion" on aluminum.

Do you like to see your photos as framed prints, or on other mediums like metal or canvas?

If I had my way I'd have all of my 2700+ photos (and counting) on my walls on metal ChromaPrints™. I've always felt it's the best way to present my images, from a clarity and color fidelity standpoint, and a preservation standpoint, as it's the most archival option out there for presenting an image. Framed paper prints are gorgeous as well, but there's something about metal prints that I just adore.
