## CREATING A HOME YOU LOVE

custom projects big and small

#### HOW WE STARTED

What was the journey to building your company and how has your work evolved beyond window coverings? I had a big dream in my tiny home office 35 years ago. I felt the world was asking me to choose between career and motherhood and I chose both. Since our humble beginnings, Cindy's & Bolligers has grown into the staple it is today by fostering relationships first, and hiring other mothers who wanted more. Now, we not only work with homeowners but also proudly partner with Portland's design community on

You work in multiple markets throughout Oregon and Washington, are there specific differences in what clients are looking for? Clients are often looking to maximize the light in their space. Our Hunter Douglas shades deliver, providing products with light control so any home can sparkle, even on a dreary Pacific Northwest day.

everything from commercial to new builds.

#### With one of the largest workrooms in the Northwest, what types of projects can you tackle?

We are an army of women in business that don't believe in the word 'no'. We have a reputation in the industry for taking innovative risks when it comes to textiles, creating solutions for your home that not only meet the needs of your window, but go a step further to enhance the aesthetic, quality, and luxury of your space.
